STATE OF IDAHO
DEPARTMENT OF INSURANCE
700 W. STATE STREET
BOISE, IDAHO 83720

The Honorable John V. Evans
Governor
State of Idaho
Boise, Idaho

Dear Governor Evans:

In compliance with the provisions of Section 41-216, Idaho Code, I hereby submit the Eighty-second Annual Report of the State of Idaho Department of Insurance.

This report gives a detailed accounting of the $24,107,400 revenue collected by the Department as well as the accounting of $662,300 expended by the Department during the fiscal year ended June 30, 1983. Also included in this report are some of the various activities of the Department of Insurance and summaries of all financial and other statistical information on all companies regulated by the Department.

Respectfully submitted,

TRENT M. WOODS
Director
Department of Insurance

ARSON FIRE FRAUD PREVENTION ACCOUNT

The Arson Fire Fraud Prevention Account was established by the legislature effective July 1, 1982, in the Department of Insurance to be funded by the assessment of all companies licensed to write insurance in the State.

The office of the State Fire Marshal was established to provide a coordinated effort of all local government authorities in the fields of fire prevention, arson control and fraud. After six months of gaining input from local authorities, five basic goals were set down as to where the State could best serve.

1. REGULATORY: The Uniform Fire Code was adopted by the legislature as the minimum fire safety standard for the State. The State also delegated authority to the local jurisdictions to enforce this standard through the State Fire Marshal. As a result of this, training programs have been developed on the fire code and are presently being delivered to local authorities. If the local authority successfully takes the training course and passes the examination, then they are certified as a fire inspector. Over 132 inspectors have been certified thus far and many more are expected to be certified.

2. ARSON: In this area, training of local authorities is again the major goal. Training is now available through the Idaho Fire and Arson Investigators Association's annual seminar, but is generally attended by the larger communities. We expect to expand this training into the smaller communities in the very near future. We have developed an arson reporting system that has been distributed to all local authorities and we have been collecting this data the last several months to determine our future role in dealing with arson. We have also handled some arson cases from the state office.

3. FIRE DATA COLLECTION: In this area, we have set up our data collection in cooperation with the National Fire Incident Reporting System. This is a very comprehensive data collection and analysis system. We now have this program computerized and have approximately 55% of the State's population represented. We will very shortly have a full year's data to analyze and, hopefully, we will be able to tell what our fire problems are so that programs may be developed to curtail them.

4. PUBLIC FIRE EDUCATION: We have done very little in this category as yet, but do expect a much larger future role. This is now in the planning stage.

5. FRAUD DETECTION AND PREVENTION: A new reporting form has been developed for immediate use for the insurance industry in their reportings of "suspected fraudulent insurance claims". This new reporting form, when properly filled out, will allow us to develop better intelligence information on suspects, their method of operation and those lines of insurance most subject to fraud. With this information we can better assist the insurance industry and law enforcement in the fight against insurance fraud.

COMPUTERIZATION OF AGENTS' LICENSING PROCEDURES

Due to the increased workload without the availability of additional personnel, the Agents' Licensing Bureau obtained the State of Nevada's data processing system for agents' licensing in August of 1982 in order to save worktime in processing applications, renewals, etc. Since that time, with the assistance of the State Auditor's data processing personnel, the system has been modified to fit our needs here in Idaho, and data for some 1,400 insurance companies and over 10,500 agents is being entered into the computer system.

Renewal notices for agents, whose last names begin with the letters "K" through "Z", are being generated by the computer and upon receipt of the proper renewal fee, a new computer generated license is being issued for each agent. A new license will be issued at each renewal in the future. Early in 1984 to even the workload, we will begin to do license renewals each month instead of once a year. This will mean that most agent licenses will be up for renewal before the two-year time period has expired on a one-time only basis. The renewal fees will be adjusted accordingly so that no one is shortchanged.

The computerization will also facilitate the renewal of agents' company appointments.

INVESTIGATION AND PUBLIC SERVICE

The Department of Insurance, Regulation and Investigation Section, consists of an Administrator, Investigation Bureau Chief, Senior Investigator and four Policy Analysts. One Policy Analyst is assigned full time to handling company policy forms and three Policy Analysts are assigned to insurance problems of the public. The Senior Investigator is assigned to fraud, fire and arson cases with assistance to the Public Service Section when available.

The function of the Investigation Section is to handle public service complaints against companies, settle disputes against agents, and assure the public of protection according to Idaho insurance laws.

FY 82-83 shows that 2,437 cases were received, 2,479 were closed, 18,683 telephone and walk-in inquiries were received, and 18,264 letters were written to assist the public. A total of $8,468,601 was recovered for the public.

Increase (decrease) over prior year	13.86%	13.25%	9.74%	3.44%	4.05%	44.47%*

*The unusual increase in the premium tax amount reflects the amendment to the Idaho Code which required the prepayment of 45% of the current year's tax on June 15, 1983. The tax due for calendar year 1982 would have resulted in an increase over the prior year of 6.38%.
